

PROFESSIONAL TRAINING WEBINAR

Walking with Survivors: Understanding Suicide Bereavement

In recognition of Suicide Prevention Awareness Month, we are offering a limited-time, **FREE** professional training that explores the various facets of grief and bereavement following a suicide loss.

Participants will explore common psychological and trauma responses, the unique challenges of suicide bereavement, and the role of meaning-making in healing. The webinar will also highlight practical strategies for reducing stigma, supporting survivors, and promoting healing.

We invite you to join us in raising awareness about the profound impact of grief on suicide survivors.

The Center for Loss and Bereavement is approved by the Pennsylvania State Board of Social Workers, Marriage and Family Therapists and Professional Counselors to offer continuing education to social workers, marriage and family therapists and professional counselors. The Center for Loss and Bereavement maintains responsibility for this program.
