

PROFESSIONAL TRAINING WEBINAR

Understanding Pregnancy & Infant Loss

In recognition of Pregnancy & Infant Loss Awareness Month, we are offering a limited-time, **FREE** professional training that explores the various facets of grief and bereavement following pregnancy and infant loss.

Together, we'll explore how pregnancy and infant loss can affect emotional well-being, identity, relationships, and family life. We'll also discuss common grief and trauma responses, how to distinguish grief from depression, and when additional support may be needed. Participants will leave with practical, compassionate ways to support bereaved parents through validation, connection, remembrance, ongoing support, and hope—without pressure to “move on.”

The Center for Loss and Bereavement is approved by the Pennsylvania State Board of Social Workers, Marriage and Family Therapists and Professional Counselors to offer continuing education to social workers, marriage and family therapists and professional counselors. The Center for Loss and Bereavement maintains responsibility for this program.
